

At QIPC you can always be yourself!

Q.I. Press Controls is specialized in the development, production and worldwide sales of peripheral devices in the graphic industry. These advanced systems consist of high tech optical measurement systems which are combined with computer based control systems. Q.I. Press Controls is an innovative enterprise that has won several prizes. Among other prizes Q.I. Press Controls has won the "Brabantse Economieprijs" for the most innovative company in Brabant, which was awarded to us by an expert jury.

At Q.I. Press Controls we feel that the employees are of major importance, therefore we offer collective lunch and coffee breaks, lunch events, Friday afternoon drinks, an annual barbeque, ergonomic work spaces, etc. The commitment of our employees is very high, not only at the main office in the Netherlands but also at our foreign offices. The short communication lines, the informal behaviour and always being open to new ideas are characteristic for our company.

To facilitate our growth we are looking for:

2 International Service Engineers

The function:

After an appropriate training period in which you will learn all about the printing processes in the graphical industry you will perform installation and service tasks for customers on site. A large amount of interdependency is expected of you. However, you do collaborate in a close team of service engineers. Strong communication skills in word and letter are essential for this function, as you will be our representative for our customers on site. You regard international travelling and communication as a unique opportunity to develop yourself (travel frequency for this job is 70%).

The right candidate:

You have a Bachelor (HBO) or Intermediate vocational education (MBO+) degree in the field of electrical engineering, measurement and control engineering, computer science or another relevant field. You have a VCA certificate and a driver's license. You have good problem solving skills for technical issues. You are an independent worker and have no problem with precise work. You are able to set priorities and to face your tasks in a goal oriented manner. Good communicative skills are highly required in this function. The employed language is English, but German is strongly wished for as well. Other languages are not required but are most certainly welcome. Last but not least, high motivation and dedication are concerned to be of major importance.

Are we talking about you?

This means that you are more than welcome to join us at QIPC. Please send your letter of application and your C.V. to:

Q.I. Press Controls
